# PMP-230-C

The PMP-230-C is the newest Marinator Vacuum Tumbler developed by Lyco & Creative Culinary Solutions.

Don't let the compact design and small footprint fool you, The PMP-230-C is a true Commercial Quality Vacuum Tumbler.

Built in the quality history of it's big brother, the Lyco Lt-40-P, the PMP-230 offers great versatility. Two different capacity drums that operate on the same base, with a high capacity, medical grade vacuum pump built right into the equipment tower.

Access to the pump and power cord is conveniently located inside the storage door built into the upper rear of the unit.

The overflow bottle helps to avoid the accidental suction of liquid into the pump while pulling a vacuum.

The Patented Removable Rib design allows the user to process the smallest and most delicate meat and fish items. Even produce can be vacuum marinated in the PMP-230-C, opening up a world of exciting recipe and menu additions.

The PMP-230-C is a great addition to the small kitchen where space is tight, and its the perfect test lab model.

The PMP-230-C has an ETL Commercial rating, Commercial ETL Electrical & Sanitary Approved..

Better Flavor.....Faster Results

The PMP 230-C Power Marinator Plus is available nationwide at select quality equipment dealers.

Additional information can be found by visiting the website at:

or by calling

Creative Culinary Solutions, Inc.

at: [1-877-369-9450](tel:1-877-369-9450)

Lead time for shipment of orders is normally 5 business days.

All major credit cards are accepted.

The PMP 230-C can perfectly marinate the smallest batches in just minutes.

The patented rib design (optional on the large poly drum) allows even the most delicate and small fish or meat items to be vacuum tumbled, opening a world of exciting new recipe and menu additions.

But talk about capacity, the large drum can even handle a 22# turkey.

Cleanup is a breeze, the drums, lids, & gaskets are all dishwasher safe.

Available with Reg. drum,

Lg Drum, or both.

Special Order Lg SS Drum Available.
